MAKE UP AND HAIR STATION

Beyond the main production zones, the studio extends into thoughtfully designed support spaces that enhance the entire creative process. A dedicated makeup and hair station allows talent to prepare comfortably and efficiently on-site, ensuring every detail is considered before stepping in front of the camera.

Designed with both creativity and convenience in mind, the space provides a seamless experience for photographers, videographers, creators, and brands. From preparation and styling through to production, every area works together to create a professional environment where ideas can be brought to life with ease.
