Trusted By:

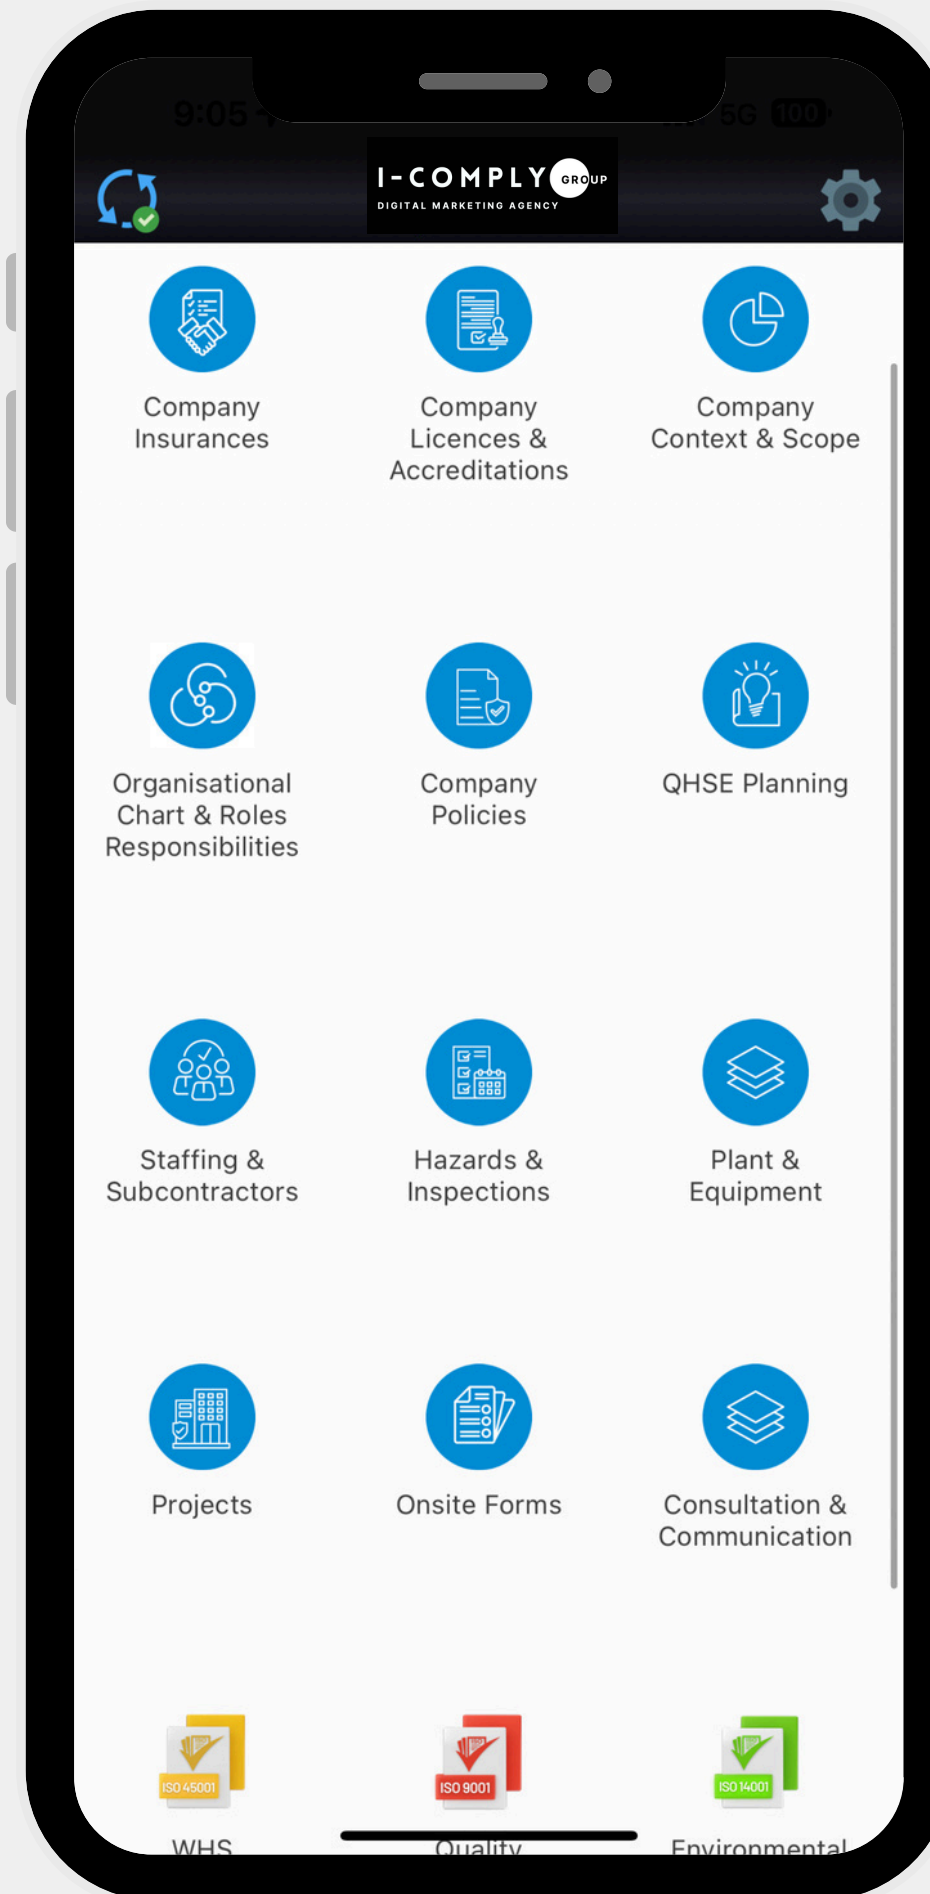

Operations Management Built bespoke for your business

Operations Management
Software Platform

Everything efficiently all in one,
replace paper, spreadsheets &
individual apps.

We Build Bespoke Management
systems designed for your
business.

01 Go paperless for more time in the field

Get all your data in one platform
with our cloud-based efficient
software.

02 Access everything efficiently all from your smartphone

All your need-to-know information
is integrated across customisable
modules with I comply

03 Better reporting, better efficiency, better profit

Get full visibility of your field
operations.

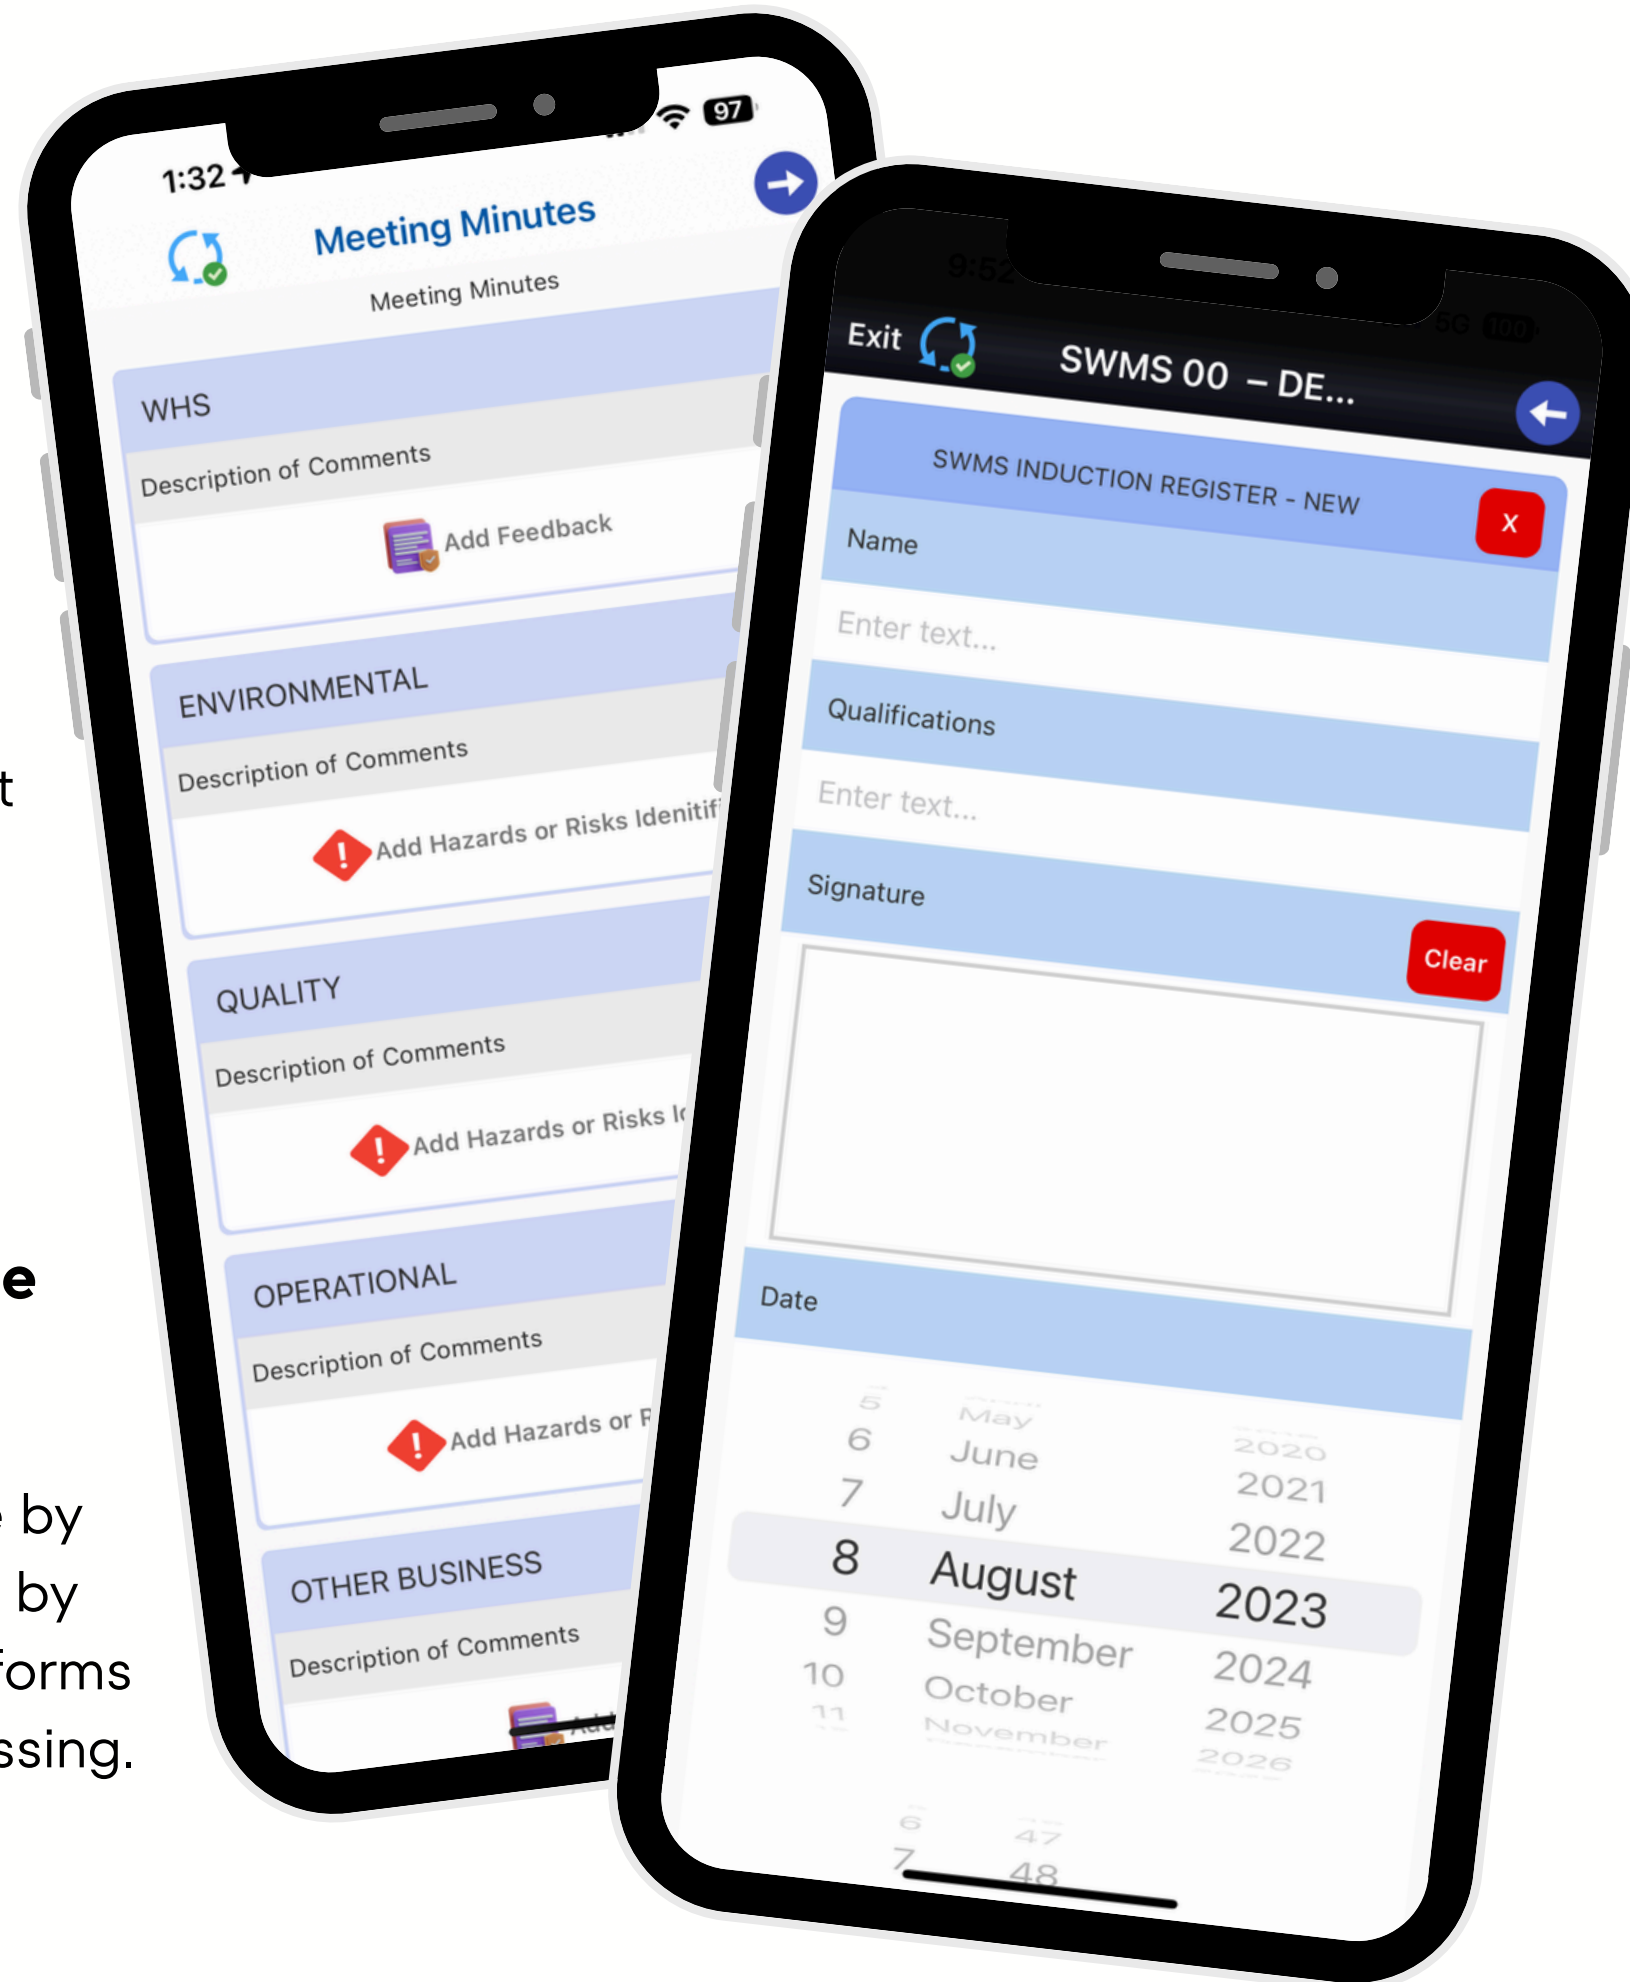

Go Digital With All of Your Forms

Build custom forms that are simple to fill-out and sign with follow-up actions, worker certifications, GPS locations, and offline support. We move with your workflow and configure around your key processes.

All your forms Completed and On-time

Forms are often incomplete, unsigned, and forgotten. Now you can ensure compliance by scheduling workers to fill out specific forms by specific dates, and easily track scheduled forms that are pending, complete, overdue, or missing.

A Compliance platform that grows with you

I - COMPLY is configurable to match your unique needs, with the flexibility to start simple and expand along with your company's growth. Our software converts your forms, templates and processes from paper to digital. We also develop these for you, with modules designed to streamline your field operations and increase collaboration every step of the way.

✓ I - Comply follows your people and processes in real time, from online registration and digital inductions.

✓ Our platform lets you know who is working, whether they are certified and licensed, if key safety actions & tasks have been completed, and if there are any concerns that need your attention.

✓ I Comply gives you unrivalled visibility on key compliance and statistics across your business. Capture crucial field data with one automated process, giving you real time oversight about what goes on onsite.

Safeguard the business

With the ability to capture photos throughout the job, management can visually approve key parts of the job and provide proof of job quality and completion. Invoice faster and get paid with full visibility.

Digital Forms

I Comply ISO's customizable forms to help businesses across a wide variety of industries satisfy compliance obligations, legal requirements and acts/regulations. With our mobile application, you can fill out and submit forms directly from the field, saving time and reducing errors.

Monitor your progress

I Comply ISO uses the latest technology to provide real-time tracking and management of job site operations. Get full visibility from the field to the office in realtime.

Geo Location Tagging

Know exactly what has been done and where with I Comply ISO's geo location tagging.

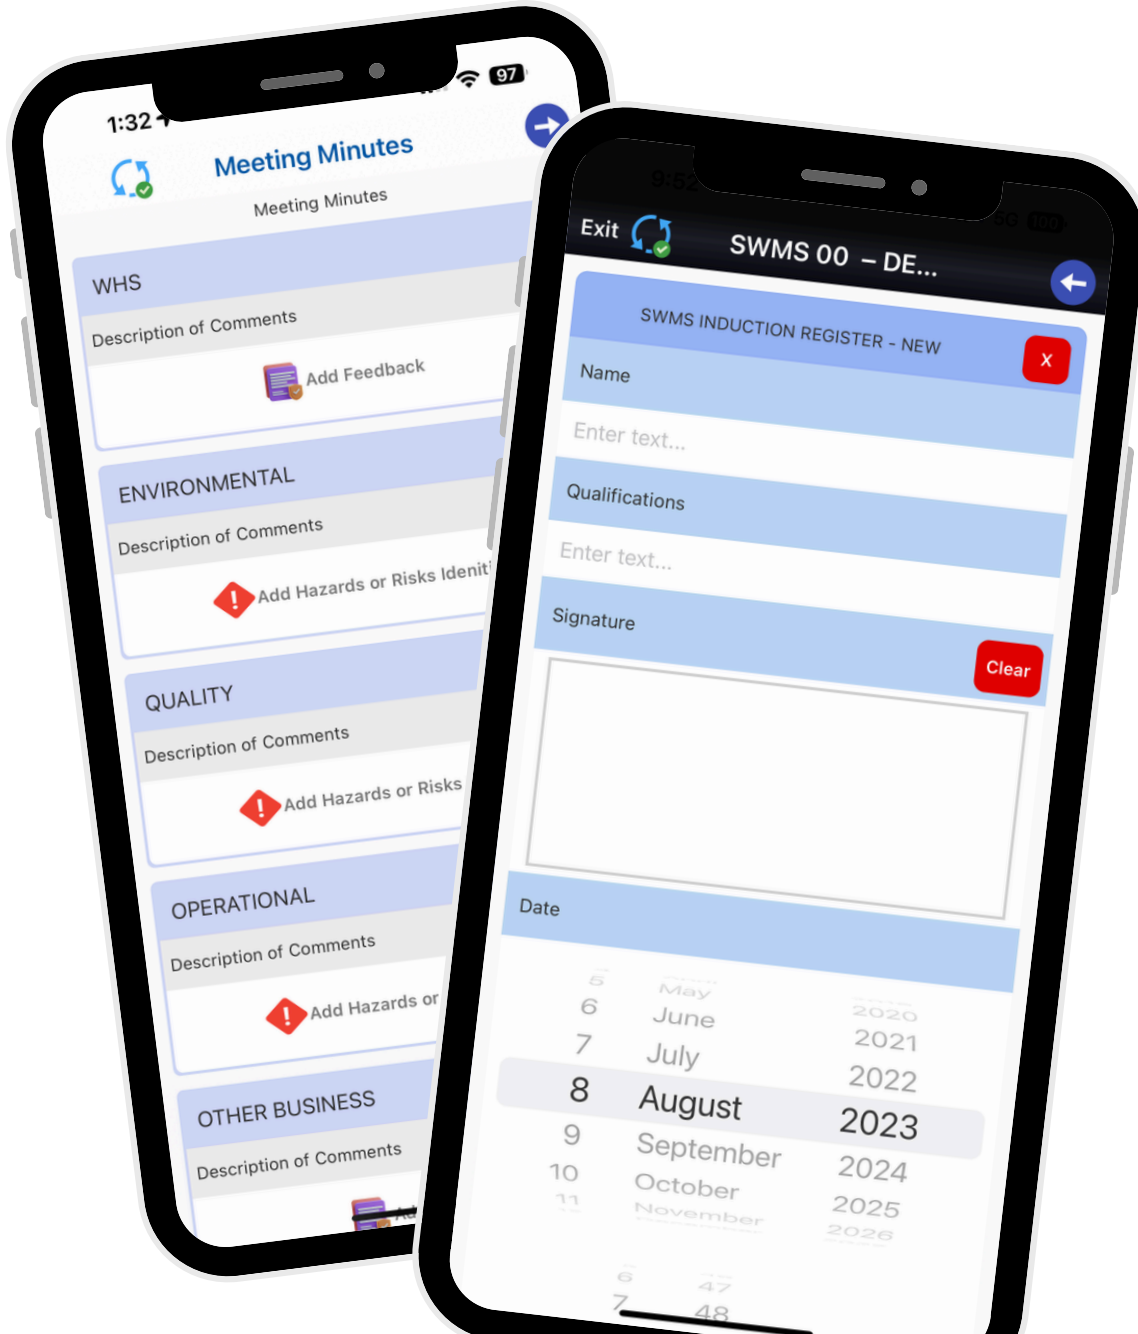

Simplified and easy to use

Automate your daily workforce, All you need is a smartphone or tablet.

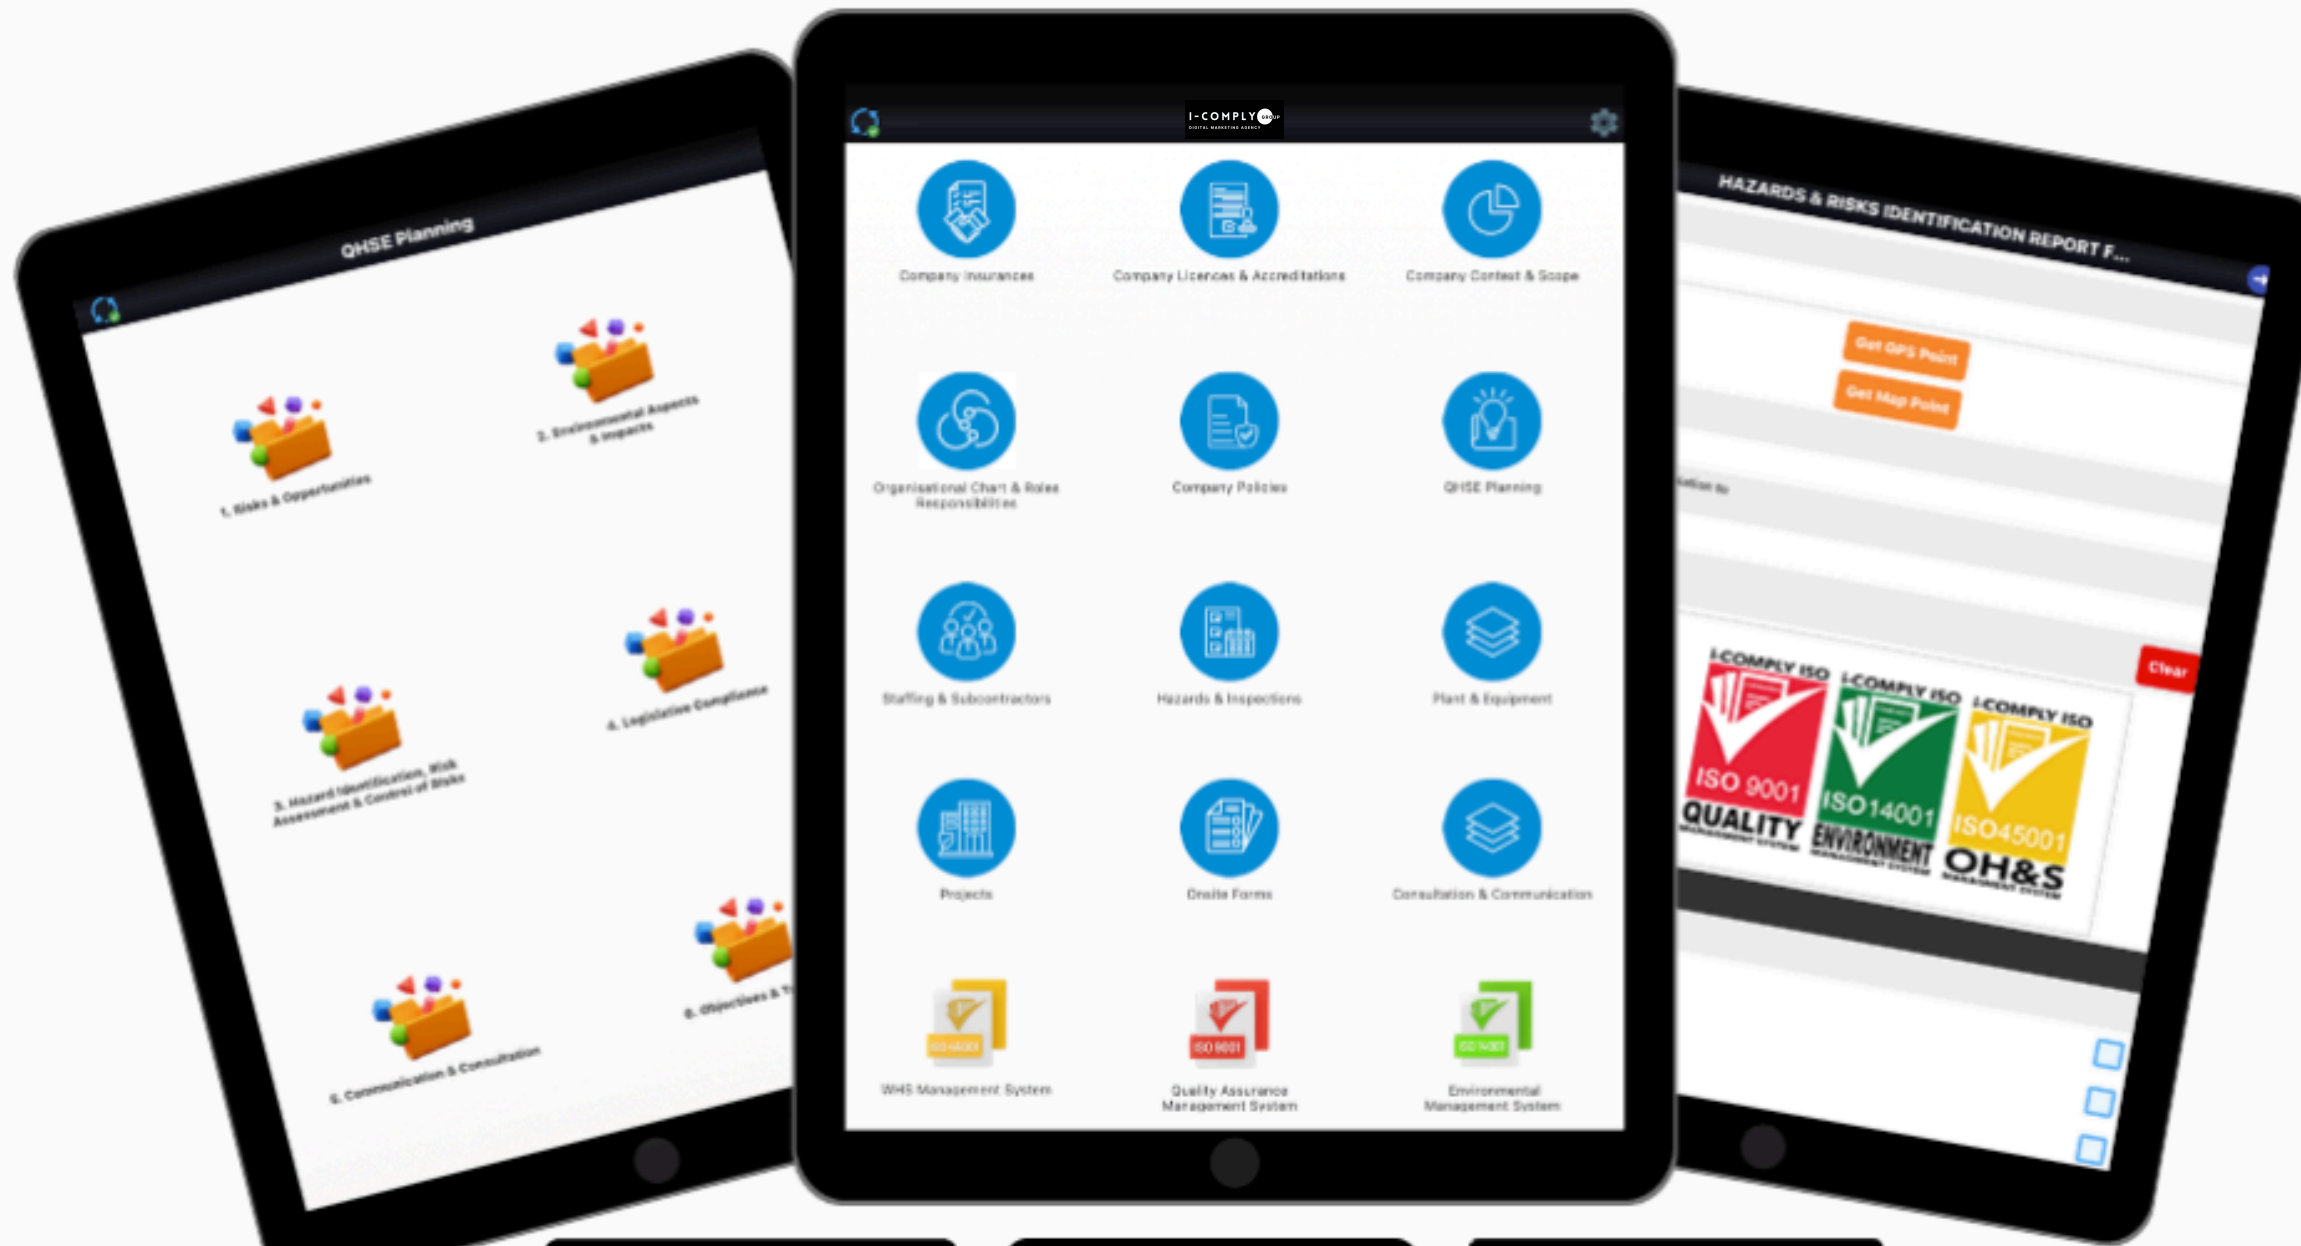

Full Integrations

Get more accurate field data into your existing systems without double-entry and errors.
